- Layouting (UI/UX Layouts)

FULL-STACK WEBSITES PROJECTS

Kalma

KALMA is an AI-powered mental health chatbot developed for Asiatech, designed to provide students with a safe and supportive space to express their feelings and relieve stress. It offers a confidential platform for venting, emotional guidance, and self-reflection. The project earned Best Innovation and 1st Place at the CEITE Exhibition.

Crown

A Tabulation System with Paired Voting, designed to automate scoring and improve event management for pageants and multi-category competitions. The system features real-time judge scoring, automated ranking, and a paired voting module specifically created for the People's Choice Award. This integrated setup ensures accuracy, transparency, and a smoother experience for both organizers and audiences.

More Projects available upon request.

EDUCATION

ASIA TECHNOLOGICAL SCHOOL OF SCIENCE AND ARTS

2022 - Current | Bachelor of Science in Information Technology
